PREMIUM VENTED GAS LOGS

The Magic Hour... it's that special time of the day when family and friends gather around the comfort of the fireplace and your home is aglow with life. Because there's nothing like a real fire, with Real-Fyre gas logs that is—the cleanest, most economical, most convenient alternative to burning real wood. In fact, by burning Real-Fyre Gas Logs instead of wood, you become a friend to the environment by dramatically reducing pollutants into the air.

Available in more than 40 authentic styles, every Real-Fyre gas log is painstakingly hand-crafted and handpainted to create the most realistic gas log set ever manufactured—from its active natural flames down to its glowing bed of lifelike embers. The result is a log set that will not only enhance the beauty of your hearth, but your experiences around the fireplace for years to come. Experience the Vented Collection from Real-Fyre and...

Experience What's Real.

CHARRED SERIES

Like an artist who can bring the beauty of nature to life, Real-Fyre artisans work from real wood samples to meticulously recreate the intricate bark detail and natural coloration of deeply charred wood. The burned-thru centers of the resulting log sets—from our Charred American Oak to our new Charred Majestic Oak—reveal the brilliance and fiery heart of a robust, long-burning fire. As with every Real-Fyre log set, reinforced steel rods are carefully inserted into each to ensure durability. Choosing from 14 different styles, experience the Charred Series from Real-Fyre and experience what's become the acknowledged pinnacle of realistic log sets.

CLASSIC & CONTEMPORARY SERIES

Since originating gas log technology some 60 years ago, Real-Fyre has grown to offer the broadest selection of log sets to enhance the home. And yet, through it all the six different styles of the Classic Series have withstood the test of time. Traditional favorites, like Golden Oak which will always be in style. Sometimes, however, the experience calls for something different, which is why we offer the Contemporary Series—glass, stone and geo-shape options that bring a completely new dimension and dramatic flare to any hearth. From classic to contemporary, experience Real-Fyre and experience what's new again.
